

Aug 20, 2008 - SIMONA.report - The Technical Newsletter published by SIMONA AG

Issue 2/2008, focusing on product innovations

Kirn, August 2008. SIMONA AG has published its latest SIMONA.report 2/2008, which can now be downloaded at www.simona.de.

Following registration, subscribers receive regular newsletters covering a range of topics. The latest issue of SIMONA.report is available in German, English, French and Spanish. The key topics in this month's issue are centred around SIMONA® SIMOFUSE®, an innovative electrofusion application for pipes and fittings, and SIMONA® SIMOPOR-ULTRALIGHT, a lightweight foamed sheet made of PVC. A special section of the report has been dedicated to the foaming method applied to thermoplastics.

SIMONA.report was launched in 2007 and is published three to four times a year. The technical newsletter is distributed to a number of international subscribers who are interested in receiving the latest information on new SIMONA projects, applications and products.
